

NCHPE 2022 Report

The Department of Medical Education organized a National Conference on Medical Education from 31st October to 3rd November 2022 at Himalayan Institute of Medical Sciences. The conference was organized under the aegis of AHPE (Academy of Health Professions Educators) and in collaboration with FAIMER (Foundation for Advancement of International Medical Education & Research), Philadelphia, USA. The directors and faculty from the 5 Regional FAIMER Institutes participated in the workshop along with faculty from all across India.

Speakers of National & International repute addressed the gathering through very informative sessions. Some of the International faculty from USA, UK, Egypt, Nepal & Malaysia gave their perspective on Competency Based Medical Education.

Some sessions on Quality assurance were also great value.

Twenty four workshops were conducted. They were in alignment with the theme of the conference “Preserving the Human Connect in an Era of Technological Advancements in Medicine”

Overall, the workshop was a great learning experience for the faculty and students. Approximately 125 research papers on Medical Education were presented during the conference”
