Workplace-Based Assessment • Feedback & Rater Training • Interprofessional Education •
Social Accountability • Educational Leadership • Professionalism & Ethics

Leadership & Contributions

Trained 3,000+ health professions educators and facilitated 120+ national faculty
development workshops. As Secretary, AHPE, advances communities of practice across
medicine, dentistry, nursing, and allied health sciences. As Director & CEO, Urja, leads
large-scale educator development, curriculum transformation, and interprofessional
education initiatives. Contributes to the development of Competency-Based Dental
Education as a Member of the Curriculum Architecture Panel, National Dental Commission.

Professional Philosophy

“Empowering educators, fostering collaboration, and advancing socially accountable,
learner-centred educational practice through reflective leadership and context-sensitive
innovation.”
